## EXPERIENCE THE BENEFITS

We help groups with a common goal...

- Management Teams
- Administrative Teams
- Athletic Teams
- Schools

Increase a sense of individual capabilities by unlocking closed minds.

Stimulate fresh thinking that will trigger learning that is transferable to your setting.

Build and strengthen communication, trust and problem solving.

Great for starting up new teams following restructuring.

## Adventure is the Key

- To improve teamwork
- To develop team building skills
- Great way to start a new team or revitalize an existing one

The awe-inspiring outdoor setting of Northeast New Mexico is the perfect place to launch your group on its journey to new possibilities.

## Low Challenge Course

The low challenge course has 13 low to the ground elements, that are ACCT (Association for Challenge Course Technology) certified. They provide an opportunity for groups to experience teambuilding through problem solving and learning to work together. The course is for all ages.

## High Challenge Course

The high elements strengthen an individual's self-confidence and problem-solving skills. Participants can push the limits and face their fears in a safe environment with exhilarating high ropes course activities.

This course combines climbing and balancing and allows participants to learn to work together and face their fears while developing physical and mental problem-solving skills.
